

WORKSHEET OUTPOST | Kindergarten Math

Extra practice: compare flat shapes

OW-K-139 | Five questions

Success criteria
I can tell how two shapes are alike and different.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Count the sides and corners. Does turning it change the shape?

2. Count the sides and corners. Does turning it change the shape?

3. Count the sides and corners. Does turning it change the shape?

4. Count the sides and corners. Does turning it change the shape?

5. Draw a shape like one on this page. Name it and describe one thing you notice about it.

You can point, speak, draw, or write. Adults can note any help they give.
