

WORKSHEET OUTPOST | Kindergarten Math

Extra practice: join and split shapes

OW-K-144 | Five questions

Success criteria
I can put shapes together to make a new shape.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Draw a square. Join opposite corners with a line. What two shapes do you see?

2. Draw two equal squares touching side by side. Name the outside shape.

3. Draw a rectangle. Divide it into two smaller rectangles.

4. Draw a large triangle. Draw a line from its top corner to the bottom side. Name the two smaller shapes.

5. Draw a shape like one on this page. Name it and describe one thing you notice about it.

You can point, speak, draw, or write. Adults can note any help they give.
