

WORKSHEET OUTPOST | Kindergarten Math

Extra practice: build and explain

OW-K-137 | Five questions

Success criteria
I can build or draw a shape and describe its parts.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Use 3 straight sticks to build a flat shape. Draw and name it.

2. Use 6 straight sticks to build a flat shape with 6 sides. Draw and name it.

3. With an adult, use clay and sticks to build a cube frame. Draw your model.

4. Roll clay into a sphere. Draw it. Can it roll or stack easily?

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
